

Early Childhood/Juniors

Recordable Pegs (set of 6)

\$92.00

Award Winning Early Years set of 6 Recordable Pegs. Simply press the button and record a 10 second message. Why not create a beautiful and informative space display in your classroom with this set of 6 brightly coloured recordable pegs. Record information about rockets, planets or space facts to display with artwork or even peg up and record descriptive language moon poems!

- Use for dens
- Talking number lines and timelines
- Clip next to pieces of work to hear a description
- Make a talking display
- Place near an activity so that children can follow instructions
- Take outside and use on fences

Rechargeable Stopwatch (12 pack)

\$196.00

The rechargeable stopwatch that just keeps going and going!

Save loads of money and time by switching to the World's first RECHARGEABLE stopwatch. Simply plug into the included docking station - eliminating the need to ever change batteries again! Each stopwatch will last for approx 10 hours with moderate use before recharging and approx 20 days when on standby. The screens has a useful battery life indicator.

Chatter Box

\$77.00

Simply roll the cube on the floor or table to hear the message you have recorded on the side that finishes uppermost. Chatter-Block is great resource for reluctant writers, developing gross motor skills and using different children's faces for turn-taking. It's also ideal for creating stories, sequencing, sound effects and even as a talking dice.

There are six recordable sides, each with a clear pocket to add your own pictures or words. Simply record a different message into each side and then activate your recording by either pressing the play button or rolling the cube. Ideal for use with all children.

Interactive Wall

\$57.00

The interactive wall is the perfect cross- curricular classroom resource. Place cards, objects or drawings inside the pockets, then record a 10 second message relating to the object in the pocket. The recordings are made by simply pressing the green button by the pocket and recording into the black box at the top, a simple switch moving from record to play, will then enable you to play back the message by pressing the green button again.

Sand Timer (3 mins)

\$40.00

Large glass 3 minutes sand timer encased in a hard plastic case able to withstand the knocks and bumps of a classroom.

Perfect for use in games, accurate event timing and experiments

Easi-Speak Sound Recorder

Record voices, sounds or music with this child friendly MP3 Recorder. Attractively designed as a microphone, children can speak freely without being attached to a PC. With up to four hours record time, Easi-Speak lets you record and playback remotely, download to a computer, or play back with this USB compatible, radio and cassette player. For hands free recording, pair the Easi-Speak Sound Recorder with the Easi-Speak Microphone stand.

Easi-Speak	\$95.00
Easi-Speak Mic Stand	\$27.00
8 Easi-Speak Microphones with carry bag	\$825.00

Set of 6 rainbow Easi-Speaks with docking station

\$607.00

These MP3 Recorders are great for building confidence in reluctant talkers and enable settings to add some vibrant colours into their recordings, observations and assessments. Attractively designed as a microphone and available as a colourful set of 6, they enable young children to communicate without being attached to a PC. Easi-Speaks allow children to record and playback remotely or alternatively files can be downloaded straight to a PC using the in-built USB connector. They can be fully charged with the docking station.

Easi-Speak docking station

\$59.00

Sitech are very excited to offer you an Easi-Speak docking station which is charged from a wall socket rather than your computer! The docking station will charge up to 6 Easi-Speaks or 6 Easi-Speak Pro's, or either a mixture of the two! (Easi-Speak's not included)

Easi-Ears

\$1199.00

Imagine being able to have different students or groups of students listening to different stories, and not just stories, any audio content. Simply send (up to 2 hours!) content to each student's wireless headset using the supplied software installed on your PC. Each student can then control their own audio, repeating, pausing and moving to the next track to meet their own needs. A remote control unit enables a teacher to intervene as required, cut in and broadcast announcements and instructions and it also doubles as an MP3 recorder so children can easily record their own audio content too.

- The kit includes 6 wireless headphones, easy to use software, a remote control unit and docking station for recharging.
- Headphone battery life is 12 hours and remote control unit lasts 20 hours.
- Perfect for use with audio literacy programmes such as Junior Journal and School Journals.

*Note: PC only

Talking Tins

Easy to use, magnetic, bright and fun disk shaped device that allows teachers and students to record short voice or musical messages or sound effects, which can then be played back at any time with the touch of a button. Includes new batteries.

Taking Tins:

- Support the development of Spoken Fluency & Listening Skills
- Support Confidence with Words
- Provide activities to support the development of writing and activities to enhance the Learning Environment

40 sec- red tin

\$22.50
