Sitech Systems N.Z. Ltd
future proofing learning

Sitech has been providing audio visual and other technology solutions to education, commercial and non-profit organisations for over 25 years. Sitech's installation expertise, range of international brands with commercial products and commitment to a comprehensive service makes them stand out as the obvious choice for stress-free lasting solutions.

Fixed and Portable Sound solutions

Sitech provides a wide range of sound solutions from portable battery powered to full auditorium installs. Equipment can be supplied and installed for training rooms and board rooms.

Wireless Connectivity

Whether you want to share your laptop/ tablet or smartphone wirelessly to a big screen or projector, we have a solution that can work for you. Want to have 4 different devices sharing at the same time to the same screen? We can show you how to simply make it happen from anywhere in your network.

Lifting and fixed height trolleys for TV Panels

Mobility is the new path to flexibility in presentation. Whether you are after a variable height trolley or a fixed trolley, we have a solution for you. Trolleys are available to carry either touch or non-touch screens from 40"-90".

Video wall system - mobile or fixed

This will make your clients focus on your presentation. A mobile set of 4 x 65" screens just has to be seen to be believed. For those bigger displays we can provide fixed or mobile video walls. Why not wow your clients with the latest in display technology?

Digital Signage

Professional commercial digital signage makes your company stand out and comes with a 3 year warranty. From using a single screen in your office or retail location to multiple screens at multiple locations we have a solution for you. Schedule automatic on/ off and program displays to suit your application.

Swivl

Swivl is perfect for a range of applications from professional development, to preparing for a major presentation. It turns your mobile device into a front-of-room assistant and complete video solution. It follows you as you move around and the Bluetooth mic ensure high quality audio by cutting out ambient sounds. It can stop on your command and be used to control presentations.

Visualisers

A wide range of document cameras and visualisers are available. From displaying and annotating documents on a big screen to zooming in to capturing video… there is a solution for you.

Tablet/laptop charging and security options

Secure your devices.
We have a wide range of solutions for securely storing and charging multiple laptops and tablets. Both fixed and portable solutions are available.

Projectors and Screens

From small portable projectors and screens to automated installs into 400+ seat lecture theatres and everything in between. Sitech provides top brands and the latest in laser technology supplied and installed for training rooms and board rooms.

Touch screens from 10"-85"

The world is going Touch.
From tablets to large format displays we have a touch-screen solution to fit your commercial application. These come with toughened glass and can be mounted on trolleys or we can install.

Non-touch screens from 17"-90"

Whether it be domestic or commercial, small or large we can supply and install display screens bright enough for any situation. These also can be fitted to a trolley or installed.

Cameras

Whether it's a budget digital camera or a 4k video camera, we can help. We also have video editing and live streaming equipment available.

Batteries, cables, leads and adapters

We have a wide range of batteries, cables, leads and adapters available for order direct from our website. We also have a wide range of headphones.
