

## MIPRO SCAN Channel Setup

Press "MENU" button until G/  
CH is showing

Press the "SCAN" button  
once and the receiver will  
autoscan and lock on to an  
available, interference-free  
frequency.

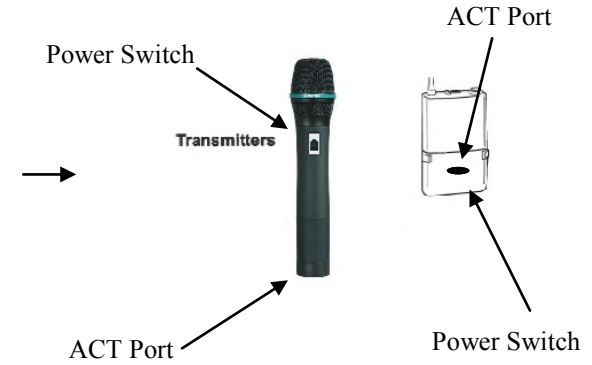

Then Press "MENU" to save  
settings

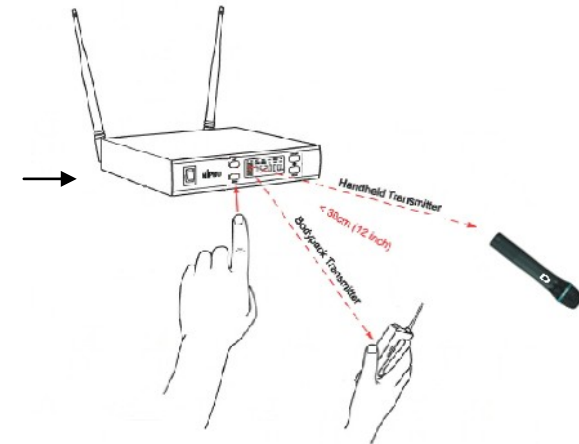

## MIPRO ACT Setup

Ensure Transmitters  
are switched on

Hold the transmitters  
approximately 30cm  
(12 inch) from the  
receiver

Press "ACT" button to  
upload the receiver  
frequency to the  
transmitter
