

Learning Station

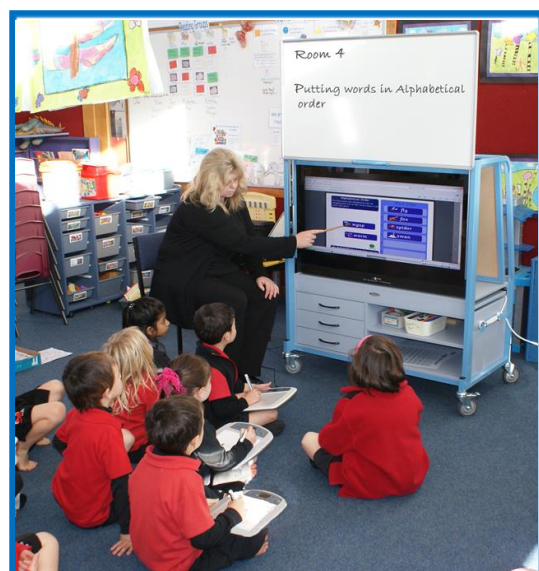

Sitech Systems Learning Stations

Sitech teaching station was designed around the existing classroom white board teaching station, so that you don't use up additional space in the classroom.

- Lifting Porcelain Magnetic Whiteboard, keeps the *learning intention* in front of the student while they are viewing the screen.
- Large rubber lockable casters for easy manoeuvrability and stability.
- Locally manufactured steel frame construction, easy screen upgradability, reducing the cost of ownership
- Tote trays so resources and printing can easily be stored.

Optional big book holder, to help large format books stay in place and to provide an angled surface to write on.
